

Institutions and Values

23 september 2015

Topics for today

- * Dilemmas and Moral Overload
- * Emotions, Values and Decision-Making
- * Institutions and Values
- * The Four Layer Model

Learning Goals

- How should we deal with conflicting demands and emotions when it comes to new technology?
- And what role do institutional values play in this process?

Miljoenennota

Moral Overload

Changing the world into a better place.

- Sustainability
- Environmentally friendly
- Safety
- Positive impact on society

Dilemmas in reality

Would you rather live in a world without terrorism or without car accidents?

Dilemmas in reality

Would you rather have no Internet or no cellphone?

Dilemmas in reality

Would you rather live in a world where there are no problems or live in a world where you rule?

Dilemmas in reality

Would you rather discover the entire earth
or go into space?

Question for debate

Should the Dutch government decide to drill for gas slowly and sustain income, or should they drill quickly to have money available right now but having to deal with costs due to collateral damage.

Institutions and Values

Value sensitive design:

- * Values
- * Norms
- * Objectives/Goals/Constraints
- * Design Requirements

Institutions and Values

Institutions are systems of established and embedded social rules that structure social interactions (Hodgson, 2006)

The Four Layer Model
